What we Offer

In our manufacturing facilities, the underlying principle of product manufacturing is based on the concept of quality by design. The key aspects such as vendor management, critical control measures which are essential for robust manufacturing is monitored by competent and experienced professional team. The in-house lab is adequately equipped to perform routine tests for release of KSM, RM, In-process and finished product as per the pharmacopeial standards. The overall GWP, GMP & GLP environment allows us to produce and deliver quality goods to our esteemed customers.

Our environmental, social, and governance criteria

Environmental criteria consider how a company safeguards the environment, including corporate policies addressing climate change. Social criteria examine how a company manages relationships with employees, suppliers, customers, and the communities where it operates.

The Seven Asset Owner Approaches to ESG

- Negative Screening
- Climate Change
- Diversity and Inclusion
- ESG Indexation
- Frameworks and Standards
- Active Ownership
- Integration
- Moving Forward
